A woman with long, wavy brown hair is the central figure. She is wearing a flowing, dark green, floor-length dress with a deep V-neck and a halter-style back. She is captured in a dynamic pose, with her arms extended to the sides and her dress billowing out, creating a sense of movement against a solid beige background. The background features large, semi-transparent letters spelling out "HUES" in a light beige color.

THERMOSTATS

SOME GO WITH THE FLOW. YOU CAN OWN IT.

The Hindware Thermostatic Diverter reimagines your shower experience by offering seamless control and precision. Crafted for modern multi-outlet systems, it allows you to effortlessly transition between the overhead shower, hand shower, and body jets; each channel resonating at your perfect, pre-set temperature. No sudden shifts. No guesswork. Only a symphony of comfort tuned to your senses.

THERMOSTATIC TECHNOLOGY:

Its advanced thermostatic control balances hot and cold water with flawless accuracy. It responds instantly to fluctuations, maintaining a consistent and comfortable water temperature throughout your shower.

SAFETY IN EVERY STREAM:

Even in moments of sudden change, its 'Hot Water Failure Control' stands guard, instantly halting the flow to protect you from scalding.

CONTROL AT YOUR FINGERTIPS:

With a sleek push-button interface, you effortlessly command your shower experience. Seamlessly switch between outlets, adjust water flow, and tailor your shower to perfection; all with a simple touch.

WHEN POWER MEETS GRACE:

Beneath its elegant form lies a high-flow system designed to deliver robust pressure, even when multiple outlets work together.
